

Beginning of season.

End of season.

Joe is really happy. That's all we're saying.

Joe Gibbs is not an easy man to please. As you can imagine, he's very particular about anything or anyone that affects the success of his team. Which says volumes about WIX filters, the only filter used by Joe Gibbs racing and by most of the teams in NASCAR. They choose WIX because it's a better filter. And so should you. WIX filters out 45% more dirt and lasts 35% longer than the leading national brand. That should give you something to smile about. **WIX. The #1 Filter in NASCAR.**
