“Keyless” Fuel Filters

Catalog Numbers: 33978, 33739, 33808

Former Design (Keyed)

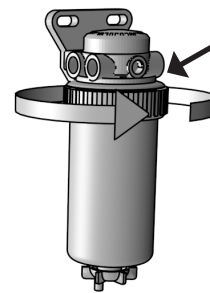

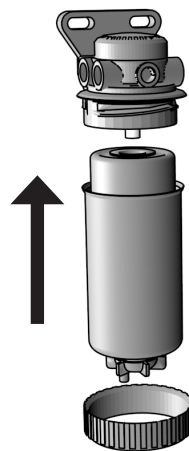

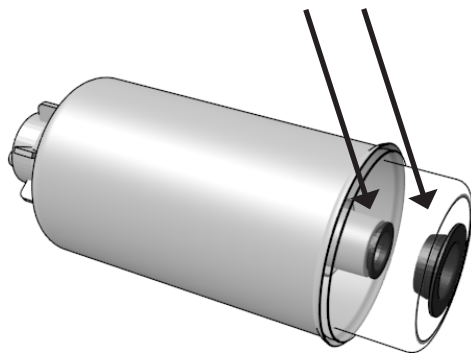

New Design (Keyless)

Due to a change in manufacturing location, the filters listed above have undergone a design change. The former keyed version has been replaced by a keyless version. The filters remain appropriate for all cataloged applications.

As a reminder, it has always been, and remains our recommendation that the selection of a replacement filter be conducted using only the most current application information available. In today's cataloging, the electronic resources (i.e. Internet, interactive electronic) would be the most current application information available.
